### ROADSIDE ELEVATION

### SIDE ELEVATION

# STATION ELEVATION

00-34  
Wood effect side on the bottom

# ROOF

Trim from both ends equally to achieve length of the building plus 2.8mm for barge boards.

Fold 00-09 in half along the middle line and glue on top of the roof panels.

Glue roof assembly to the building with gables flush to the side elevations. Optionally leave separate to achieve removable roof.
