- 1x LCC 74-95
- 1x LCC 74-96

We recommend PVA or any other paper/wood glue for the main fibre board parts and resin based glue for 3D printed parts if present.

Painting recommendation:

We recommend using acrylic or enamel paints. There is no need to undercoat the surface but it can be done if desired.

The material used is porous and relatively forgiving, heavy coats are unlikely to flood the brickwork. If you experience any warping in the material leave it to fully dry and then gently bend it back into shape. Always test any paints in an area that will not be seen or on spare parts/off cuts.
